THE CLOISTER.

Three Beautiful Women, Belles in Society, Enter a Baltimore Convent.

BALTIMORE, Md., Jan. 11.—Within the high brick, prison-like walls of the Visitation Convent on Park avenue, three new nuns have just been received. Their names in religion are Sister Mary, Sister Angela, and Sister Rose.

Sister Mary is a type of southern beauty and the sack-like dress she wore ill concealed the grace of her figure. The last time the writer saw her she was in a ball room, the most lovely and most admired woman there, resplendent with jewels and smiling on a train of admirers. Her name in the world was Miss Emily McTavish. She is a great grandniece of Charles Carol, of Carolton, and a grandniece of the famous Misses Caton, the "Three American Graces," who are now the wives of English lords. Miss McTavish was the belle of last season here. Her wealth, her beauty, her high pedigre and her social graces made her the most sought after girl in Baltimore. She suddenly decided to enter the convent. All the pleadings in the world could not induce her to change her mind, although she was the reigning society belle and very wealthy.

Sister Rose is another beautiful girl. She was Miss Lily Hunter, recently a leader in the highest social circles of the "F. F. V." She was pretty, courted and wealthy, and at the height of her second season, when she gave up the world and came here.

The third, Sister Angela, was, in the world, Miss Lizzie McMasters, daughter of the late James McMasters, of the New York *Freeman's Journal*. She was a society belle also, and as suddenly came to the determination to renounce earthly pleasures.

Ocean Disaster.

WASHINGTON, Jan. 10.—The signal corps station at Cape Henry, Va., reports that the German bark, Elizabeth, of Bremen, went ashore at 2. a. m. Saturday, fourteen miles south of Cape Henry, Va. The crew were lost, also the captain and two men of the Little Rock life saving station and two men of Dam Neck Va., life saving crew, who were drowned while attempting the rescue of the ship's crew.

Hoosier Drummers Dine and Dance.

TERRE HAUTE, Jan. 10.—The Commercial Travelers' association, of Indiana, held their twelfth annual convention here Saturday, about 400 being present, many accompanied by their wives. O. W. Moorman, of Indianapolis, was elected president; C. W. Bridges, of Indianapolis, first vice president; D. W. Coffin, of Indianapolis, secretary and treasurer, and delegate to the national convention. A banquet was given in the afternoon, at which 600 covers were laid, and a grand ball at night, under the auspices of the wholesale merchants and manufacturers and traveling men of the city.

COLONEL ROBERTSON

Declared Lieutenant Governor by the Republican Senators and Representatives—Extraordinary Proceedings.

INDIANAPOLIS, Ind., Jan. 10.—The hallways and corriders of the capitol were thronged by an immense crowd of people, this morning, anxious to witness the possible developments in the political struggle now in progress. Directly after prayer in the house, the doorkeeper stepped to the front of the speaker's chair and announced the presence of the senate, consisting of the nineteen republican members of that body.

Mr. Kellison, democrat, arose and called, "Mr. Speaker," but he was not recognized. The republican senators entered and took their seats. Mr. Kellison was meanwhile vainly claiming the speaker's attention.

Speaker Sayre immediately announced that the business of the convention was to canvass the vote for lieutenant governor, and Kellison again sought a hearing, but was promptly told he was out of order.

Other democratic members claimed the speaker's attention, but all were refused recognition. The reading of the returns consumed half an hour., and at the close, while the clerk was making his computation, Jewett, democrat, addressed the speaker, but was told nothing would be in order until the canvass was completed. The result of the vote was announced as follows: Robertson, 232,916; Nelson, 229,593. Robertson's majority, 3,323.

Upon this, Robertson was then sworn in by Judge Walker, of the superior court.

Said Speaker Sayre: "I declare Robert Robertson the lieutenant governor of Indiana, and he will address you."

Colonel Robertson instantly advanced to the front of the speaker's desk, and, taking the gavel, rapped for order. Mr. Gordon (democrat) raised his hand and called, "Mr. President!" but no attention was given him. Mr. Jewett also did the same. They managed to utter a protest, which was the signal for great disorder, during which Robertson delivered his inaugural.

NOTES.

"Mr. Lemcke has not notified me, as the *Journal* states," said State Treasurer Cooper, "that in my settlement with him he will not receive receipts for money paid on legislative warrants signed by President Smith, of the senate. In fact he has not said or written anything about it to me. I don't pay out money in orders or warrants signed by the president of the senate, but only on warrants that come from the auditor of state, and it is none of my business what they are for. I don't anticipate any trouble on this account, however."

There is at present only about $25,000 in cash available for the expense of continuing the work on the new state house, and this will be exhausted in less than two months. Unless the legislature makes some other provision there will be no further income available until the proceeds of the general tax levy for the current year begins to come in next August. The estimated expenses up to that time are about $70,000, and unless the commissioners anticipate this, the work will either have to be stopped for several months or the contractors continue it and wait for their money. The total expenditure already made and contracted for is $18,000,000, and the original intention was to reserve the money that came in next fall to pay the per cent. kept out of the contractors' estimates on the work already done.

The *Labor Signal* has this to say of the attitude of the Knights of Labor in the legislature: "An effort was made to hold an independent caucus of Knights of Labor, for the purpose of organizing the legislature and electing a Knight to the speakership, thus making sure of representation upon the most important committees. It was within the power of the Knights of Labor to do this, but a majority did not choose to avail themselves of the opportunity, and the project was abandoned. Three Knights of Labor, Messrs. McKay, Glover and Robinson, will, it is understood, refuse to enter the senatorial caucus. If they stand out, and we believe they will, the Knights of Labor can name the next United States senator from Indiana. If they do their duty, Mr. Harrison's successor will be a man who stands squarely upon the Knights of Labor platform, and who will go to Washington pledged to the interests of the people as against monopoly in every shape and form."

It is about time some one was introducing a bill in the legislature making a direct attack upon the ill-fame element, as it has been some time since the solons of the state have gotten up something in this direction. There is still a recollection of the one several years ago, and of the one thousand dollar rumor, and the wine supper episode which followed an unexplained disappearance.

Both the leading parties were pledged to increased saloon tax in the last campaign, the only difference being that the republicans were pronounced in declaring for high license, while the democracy were timid in saying to what length they were willing to go. For this reason it is practically certain that bills will be introduced, in accordance with their respective pledges, but it is not altogether certain that these bills will be permitted to run their course ere they disappear.

Judge A. A. Chapin convened court this morning, and, as is his custom, he proceeded to make up the docket. Death of Mr. W. T. Hunter.

Mr. W. T. Hunter died yesterday morning at his home in Huntertown after a brief but malignant attack of pneumonia. He has been ailing but a little less than a week, and not until Saturday did the disease assume a serious phase. Mr. Hunter is one of the pioneer citizens of this county, having almost reached the age of eighty-five years. His children grew up about him in the town he founded and they enjoy the honor that follows their illustrious father to the grave. It is less than a year since he and his wife, now deceased, celebrated their golden wedding anniversary amid the well wishes and congratulations of a host of friends and neighbors. Last Christmas he gave to each of his children a deed to a valuable piece af property in his estate, as a gift, and then gave evidence of repeating another such noble act on a like occasion. Mr. Hunter's funeral will occur next Thursday from Union chapel, at Huntertown, and later THE SENTINEL hopes to give a sketch of his life. He was the father of Cas Hunter, deputy county treasurer; Mr. Joe Hunter, who is always a judge at the fair races, and the father of Mrs. Dr. Greenwell, of Huntertown.

Boston is Enjoying a Big Street Car Strike.

BOSTON, Mass., Jan. 10.—A general tie up on the consolidated horse railroad occurred this morning. WESTRUMB.

It is Rumored He has Fled to Escape the Wrath of Ernest Minneker.

It is stated on the best authority that Baron H. C. F. Westrumb, who guided his horses on the Pittsburg track, the night the ill-fated sleighing party was run down, has fled from the city. He was censured by Coroner Dinnen, but the immediate cause of his flight was information from Ernest Minneker, father of Dina Minneker, who was killed, that he must prepare to defend his life at their first meeting. Westrumb made the remark to Captain Diehl, just after the accident, that "I would sooner have lost both horses than have it happen," and this coming to the ears of Mr. Minneker, aroused his anger beyond control. Mr. Westrumb did not leave his card, so that THE SENTINEL cannot give his exact whereabouts.

QUITE A BOOM.

A Wealthy Syndicate Make Propositions to Purchase the Street Car Lines.

A syndicate of capitalists have made a proposition to buy out the Citizens' Street Railway company and the matter will be considered at the meeting of the stockholders to-morrow. The orginal stock of the company is $27,000 and the property is bonded for $20,000 ten per cent. bonds. The coupons have not been clipped for eleven years and this swells the bonded indebtedness to $42,000. The new syndicate proposes to purchase the stock and bonds considerably below par and then improve and extend the lines, closing their scheme by cancelling the old bonds and issuing new paper to the extent of $75,000 or $100,000. This would pay a handsome profit if they only operated the lines until the first interest payment was defaulted. In any event the street car lines will be extended and improved in the spring.

ITALY does better than the United States in the matter of monuments. One has been erected to Victor Emmanuel, at Turin, costing $200,000, all of which was paid by King Humbert. Another is going up on the Janiculum, in Rome, to Garibaldi, to cost as much. Milan, Naples, Genoa, Palermo and Bologna are putting up monuments to Victor Emmanuel, costing from $50,000 to $100,000 each, and Genoa is spending $30.000 on one to Mazzini.

THE preparations for the great World's Fair of 1889 at Paris may be said to have fairly begun by the closing of the little park which fringes the Quai d'Orsay side of the Champ de Mars. Trees and plants have been hewn or pulled out, and vases have been removed in order to make room for the foundations of the new Tower of Babel. Workmen's sheds have also been erected on the spot, and everything around wears a busy aspect.

IN Muscat the men all wear skirts, and the women wear the breeches, though this principle of reversal does not extend beyond the apparel. Muscat's principal industry is the export of dates, the finest of which come to America. In return we send the people of Muscat cotton sheeting. The dates, as they are packed for export, are packed down with American cider presses. India takes large quantities of the inferior quality of dates, and the membraneous parts of sharks' fins are dried and exported to China.

A MAN living at Pocahontas, Iowa, claims to have found a cheap and excellent substitute for coal and wood as fuel. He grinds prairie grass with cornstalks and presses the pulp into blocks a foot long and four inches thick. One of these blocks, it is claimed, will last an hour, giving a good, steady heat. The fuel, it is claimed, can be made for $2 a ton, and is much cleaner and burns longer with a better heat than any soft coal. The coal barons would do well to take this man into partnership before he demonstrates that it is possible for the world to get on without their productions.

CONGRESSMAN LAWLER has been so overrun with the wives and mothers of office-seekers that he recently gave orders to the door-keepers of the House not to send any more cards. Recently, however, Mrs. Lawler went to see the statesman from the Second Illinois, and on being told that she couldn't see him, exclaimed: "Can't see him! Why, I'm his wife!" "Oh, come, now," was the heartless reply, "you can't work that racket here. A hundred women to-day have told me the same thing." It is said that Mrs. Lawler's face is seen more frequently in the gallery since that thoughtless remark was made.

A NEW YORK paper flashes up a lengthy story of a ghostly promenader on Brooklyn bridge, which always winds up its walk by leaping from the bridge with a scream. A Broadway, New York, jeweler, it is stated by the same paper, exhibits a crown which the EmpressEugenie considered "the nicest one she had ever worn." The ex-Empress, after the death of her son, returned it to the Parisian jeweler from whom she originally bought it, for $40,000. Then a rich New-Yorker bought it, intending to present it to a prima donna, but the lady's husband filed an objection. These two stories are a nice pair.

THE London *Times* corresponde the other day ascertained from M. Pasteur the precise state of the Pasteur Institute subscription and of his experiments. The subscription has now nearly reached 1,800,000 francs, but contributions still flow in, though rather more slowly, and M. Pasteur has reason to hope that he will eventually reach the sum required. The Paris municipality has given a gratuitous lease for 99 years of 2,500 meters of ground, the site of the old College Rollin. This area being insufficient for the laboratories, not merely for rabies but for other contagious maladies, he has asked for a lease for 99 years of 2,500 meters adjoining.

IT is related by a Nova Scotia paper that while two young men of Shelburne were hunting moose recently one of them entered a peculiar hole discovered in a cliff of rock, but coming in contact with some fur he speedily withdrew. The two fired several shots into the hole, when out came a little black bear. They quickly put an end to the creature, and then looked in to see if they had done any mischief inside, when to their surprise they saw two more lying dead. The latter were large, but they were dragged out. One of them was skinned and the other two slung over their backs and toted home.

A REMARKABLE woman died a few days ago at Villa Rica, Ga., aged 92 years. She was a midwife, and during her life she was at the birth of 519 white children and 347 colored, and she never lost one of these or its mother. She was the mother of ten children, one hundred grandchildren, fifty great-grandchildren, and eleven great-great grandchildren. For eighty years she was a consistent member of the Methodist Church. Just before her death she said to her son: "I am going home." He asked: "Mother, are you not home now?" and she said joyfully: "No, I am going to my heavenly home." And thus she passed peacefully away.

M. DE LABOULAYE, the new French ambassador to St Petersburg, has been instructed by his Government to keep his head on a level with those of the other great powers. As he has no personal fortune the French Government has given him a carte-blanche allowance. M. de Laboulaye has hired a splendid mansion on the Quai de la Cour, near the palace of the grand dukes. A double marble staircase leads to two vestibules, which are being hung with Gobelin tapestries and end in a winter garden. The reception and ball-rooms are lighted with colored Venetian lamps and surrounded with Venetian glasses. Up-stairs are the living-rooms and the offices of the embassy.

NAPOLEON said that an army, like a snake, moved upon its belly. General Egbert L. Viele, echoing that maxim, declared the other day that bad cooks had been the curse of the United States regular army. General V. was visiting West Point, and he was pleased to be able truthfully to add that the reform in the matter of cookery there has been thorough. The young "fire-eaters" there breakfast, dine and sup according to hygienic rules. General Viele, says a writer commenting on this, has made no utterance, however, as to reconciling hygiene with hard-tack on such a march as that which Hood took before he struck Sedgwick in the bend of the Harpeth River. In some of the knapsacks, of which dead rebels were stripped on the battle-field, were found bits of sassafras bark, pone bread crust and roasted acorns. That was the food they had, but they fought like devils.

THERE is a Representative in Congress from one of the Southern States who manages to live comfortably in Washington at an outlay of not more than $1,500 per annum. He has no family, neither drinks nor uses tobacco in any form, yet he appears to enjoy life in his own way and is a general favorite with his Congressional associates. He has a neat but not extravagant apartment in an eminently respectable section of the city and dresses in good taste. Many of his companions are very anxious to learn his methods of saving so much of his salary, but he refrains from giving any advice on the subject, but tells them good-naturedly that it is the result of his self-control. He is not in any sense a miser, but he is about the best specimen of a model moral Congressman in existence to-day.

"THERE is a revolution impending in the construction of locomotives," said a railroad engineer, "and the improvement, I understand, is due to the success of the triple expansion engines on ocean steamers. Not that compound engines are not to be used for locomotives, but if a number of cylinders aggregating the same power will save coal on an ocean steamer, why not on a locomotive? The fact that the present system is not the best has been well known for a long time. The transmission of power through the connecting rods to the drivers is an uneconomical way at best, and when in going around curves the wheels are not able to turn in unison, one or the other must slip so long as they are rigidly connected. Now it is proposed to use four cylinders instead of two, one pair for each set of drivers. The aggregate power of the four is equal to that of the two now used, but it was found in a series of experiments made at Woolrich Arsenal, in England, by the British War Office, that the power used to move the locomotive itself was from 30 to 40 per cent. less with the four cylinders than with the two. The experiments were made with an old two-cylinder locomotive altered to use four cylinders. Of course the results were not equal to those that could be obtained with a machine made to order. The coming locomotive will have a pair of cylinders for each drive-wheel axle."

BEFORE AND AFTER.

How Fares the Democratic Newspapers That Opposed the Election of Judge Robert Lowry.

During the last campaign four democratic papers in the district opposed the election of Judge Lowry, the regular nominee. Monte Christo-like they are reaping their reward and Hon. Andy Ellison's Lagrange *Sentinel* alone holds out against the fates. The Kendallville *News*, the Albion *Democrat* and Garrett *Clipper* were foremost in the democratic revolt. Now look at the picture:

The new publishers of the Kendallville *News* announce that Dr. Parker's retirement from that paper is final and complete; J. J. Lash has sold the Albion *Democrat* to a straight democrat and H. E. Little last week disposed of his interest in the Garrett *Clipper*. It is said the Albion *Democrat* lost 100 patrons in one day. The *News* and *Clipper* only saved itself by a timely "flop" and subsequent activity in behalf of the ticket. But the work had been done; the seed of dissension sown; the disappointed element had been organized and the rebellion put in motion. This is the reward.

Public Installation at Zanesville.

The members of Fellowship lodge, No. 525, I. O. O. F., Zanesville, gave a semi-public installation on Wednesday evening, Jan. 5. It has long been known that for genuine hospitality the good people of Zanesville have few equals and no superiors and upon this occasion the Odd Fellows and their wives added another substantial proof. The families in the village and surrounding country were pretty well represented in the hall and in addition quite a number of Odd Fellows went over from Roanoke in sleighs. The hall was densely packed and after order was called D. D. Grand Master George W. Diffendoffer installed into their respective chairs the officers of Fellowship lodge, Martin Scott, N. G.; Quincy Reddin, V. G.; John Carl, treasurer, with the usual compliment of supporting officers whose names we did not learn. After the ceremonies of installation were concluded, calls were made for speeches in which a number responded in short, but well timed remarks. Under the direction of Brother Diffendoffer, who was also master of ceremonies, the hall was arranged, and as if by magic a table appeared stretching the full length of the hall, filled with the delicacies of the season.

The State Weather Service.

James Cassidy, the observer of the state weather signal corps, now in Indianapolis, has issued a circular, addressed principally to railroad men, soliciting their co-operation in organizing the service, which, it is intended, shall be operated in conjunction with the board of trade, railroad companies, and other corporations, and with the national weather service. Purdue university will conduct the service, and through this medium it is intended to keep the farming community informed as to what the weather probabilities will be. The railroads are asked to assist by either hoisting signal flags or bulletin-boards giving the daily indications.

Journal.

There is a saloon on Calhoun street, not very far removed from the corner of Wayne and Calhoun streets, that is best known to the boys about town as the "Chippies' Roost." It is a notorious fact that young men and girls congregate there at all hours of the day and night, and that numerous asignations are consummated there. The place is a tough one and should demand the immediate attention of the authorities.

Catarrh is a constitutional disease, Hood's Sarsaparilla is a constitutional remedy. It cures catarrh. Give it a trial.

Rheumatism

We doubt if there is, or can be, a specific remedy for rheumatism; but thousands who have suffered its pains have been greatly benefited by Hood's Sarsaparilla. If you have failed to find relief, try this great remedy.

"I was afflicted with rheumatism twenty years. Previous to 1883 I found no relief, but grew worse, and at one time was almost helpless. Hood's Sarsaparilla did me more good than all the other medicine I ever had." H. T. BALCOM, Shirley Village, Mass.

"I had rheumatism three years, and got no relief till I took Hood's Sarsaparilla. It has done great things for me. I recommend it to others." LEWIS BURBANK, Biddeford, Me.

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion;* 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

PRICES DURING 1886.

THE BUSINESS BAROMETER OF THE PAST YEAR.

The Stock Fluctuations in Wall Street Result in Better Prices—The Cost of Food—A Prosperous Outlook for 1887. Petroleum.

The following chart presents a complete picture of the fluctuations in railroad stocks at the New York Stock Exchange during the year 1886:

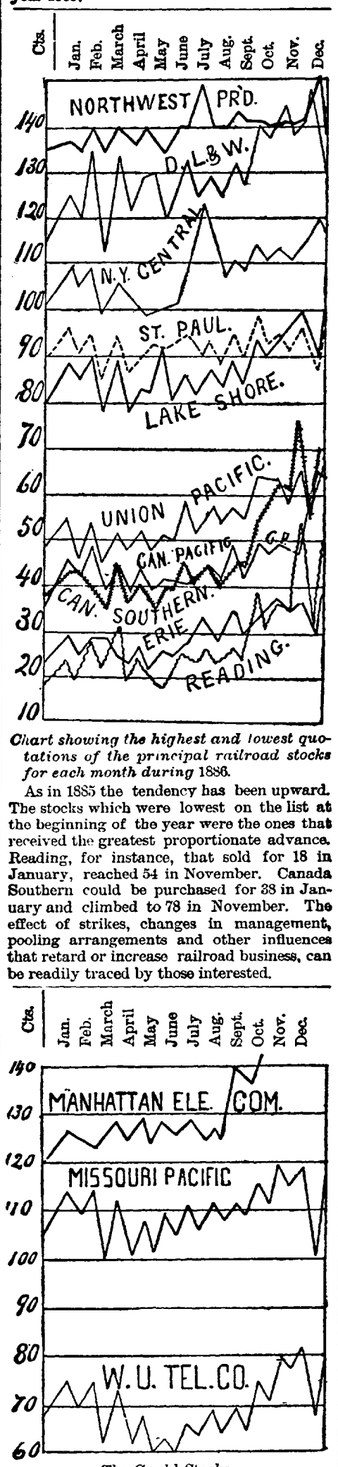

Chart showing the highest and lowest quotations of the principal railroad stocks for each month during 1886.

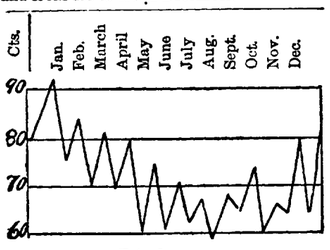
As in 1885 the tendency has been upward. The stocks which were lowest on the list at the beginning of the year were the ones that received the greatest proportionate advance. Reading, for instance, that sold for 18 in January, reached 54 in November. Canada Southern could be purchased for 33 in January and climbed to 73 in November. The effect of strikes, changes in management, pooling arrangements and other influences that retard or increase railroad business, can be readily traced by those interested.

The Gould Stocks.

Mr. Gould says he has retired from Wall street, otherwise what a temptation it would be for him to take advantage of the many turns which take place in the stock he controls. Manhattan Elevated railroad shares, which he purchased for sixty-five cents in January, 1885, were selling at from 142 to 175 in October, from 163 to 172 in November and and from 153 to 164 in December.

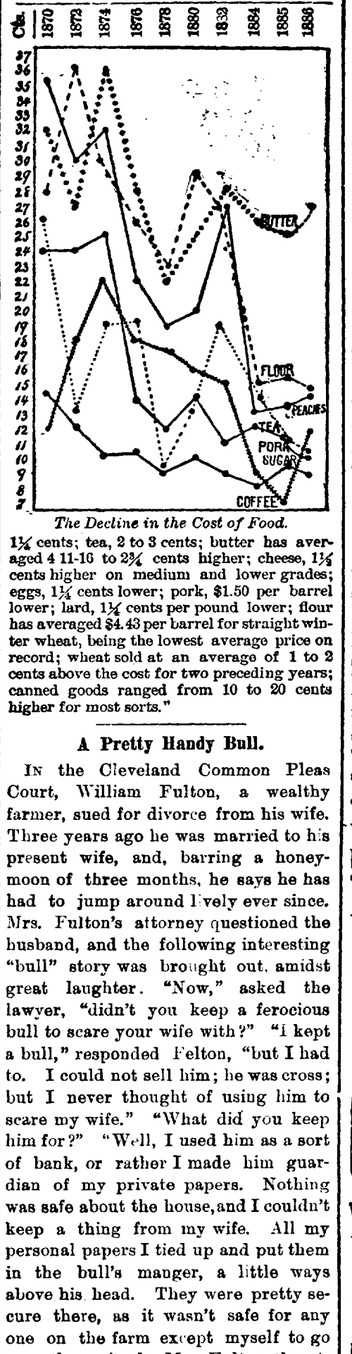


Petroleum.

Petroleum has had many ups and downs during the year It has become the chief of the gambling stocks. The chart gives the highest and lowest prices per barrel for each month during the year. From 93 cents in January it dropped to 58 cents in August, which was the lowest price it ever reached on the exchange.

The following chart shows the fluctuations in the wholesale prices for the principal articles of food during the past sixteen years. The prices of butter, tea, sugar and coffee is given per pound, flour and pork by the barrel and peaches per can. As the prices and grades of the various food products vary so greatly, the endeavor has been to record a medium grade. The value of the chart can best be understood by following the fluctuations of each line from left to right. Take canned peaches, for example. The grade which cost 35½ cents in 1870 could be purchased in 1886 for 14½ cents. Coffee, the lowest article on the list in 1870, sold at 12 cents per pound, rose to 22 cents in 1874, fell to 7 cents in 1885 and cost 12 cents in 1886. The American Grocer gives as a reason for the advance in coffees: "A steady increase in the consumption is to be noted year after year. The decline of the supply from Ceylon, the check given to setting out new plantations by reason of several years of low prices have caused the total supply of producing countries to fall below the requirements of the consuming countries."

The same authority says:" That the wholesale cost of staple articles of food during 1886 were with one or two exceptions lower than in 1885. Higher prices have ruled for some of the luxuries, such as coffee and canned goods, but as the advance was made mostly during the last quarter of the year it has not to any appreciable extent influenced the cost of living. Consumers never before commanded a greater variety of food and of such high quality as in 1886. Wages are good and the buyer can get more for them to-day than at any previous time in a generation. Certainly there is no cause for grievance so far as the food supply is concerned. Sugar has declined 1 cent per pound; rice,



The Decline in the Cost of Food.

1¼ cents; tea, 2 to 3 cents; butter has averaged 4 11-16 to 2¾ cents higher; cheese, 1½ cents higher on medium and lower grades; eggs, 1½ cents lower; pork, $1.50 per barrel lower; lard, 1¼ cents per pound lower; flour has averaged $4.43 per barrel for straight winter wheat, being the lowest average price on record; wheat sold at an average of 1 to 2 cents above the cost for two preceding years; canned goods ranged from 10 to 20 cents higher for most sorts."

A Pretty Handy Bull.

IN the Cleveland Common Pleas Court, William Fulton, a wealthy farmer, sued for divorce from his wife. Three years ago he was married to his present wife, and, barring a honeymoon of three months, he says he has had to jump around lively ever since. Mrs. Fulton's attorney questioned the husband, and the following interesting "bull" story was brought out, amidst great laughter. "Now," asked the lawyer, "didn't you keep a ferocious bull to scare your wife with?" "I kept a bull," responded Felton, "but I had to. I could not sell him; he was cross; but I never thought of using him to scare my wife." "What did you keep him for?" "Well, I used him as a sort of bank, or rather I made him guardian of my private papers. Nothing was safe about the house, and I couldn't keep a thing from my wife. All my personal papers I tied up and put them in the bull's manger, a little ways above his head. They were pretty secure there, as it wasn't safe for any one on the farm except myself to go near the animal. Mrs. Fulton threatened continually to burn the house, and I insured it, being determined to save myself from loss. The insurance papers were taken care of by the bull in the same manner. He was a pretty handy bull."

GEN. BOULANGER, French Minister of War, has caused some commotion among the numerous pigeon-flying societies of Belgium by a recent order prohibiting all foreign pigeons from entering France, lest the Germans should establish stations in Belgium or elsewhere for their military carrier-pigeons. The Belgian Minister of Foreign Affairs has promised to intercede for the Belgian carrier-pigeon societies, but *La France Militaire*, the organ of Gen. Boulanger, replies that under no conditions can foreign carrier-pigeons be allowed to enter France, and it brusquely accuses the Belgian societies of introducing German pigeons into France as well as their own.

AN old Cincinnati man tells how Gen. Butler got his wife. Miss Hildreth, the daughter of an Episcopalian clergyman, was engaged as leading lady at the principal theater in the city. Gen. Butler happened to be in the city when she made her debut and attended the theater every night. In about two weeks he carried the accomplished actress away as his wife, and the management and public were left in mourning. Benjamin hasn't always been so fortunate in "getting there" since.

Catarrh

Is a very prevalent and exceedingly disagreeable disease, liable, if neglected, to develop into serious consumption. Being a constitutional disease, it requires a constitutional remedy like Hood's Sarsaparilla, which, acting through the blood, reaches every part of the system, effecting a radical and permanent cure of catarrh in even its most severe forms. Made only by C. I. Hood & Co., Lowell, Mass.

The annual rental of pews in Mr. Beecher's church realized $27,861, an excess over last year.

THE NEW QUININE. KASKINE.

WHAT THE PHYSICIANS SAY ABOUT IT FOR RHEUMATISM, MALARIA, DYSPEPSIA, *NERVOUS DEBILITY*, LIVER, LUNG AND KIDNEY DISEASES.

The eminent and celebrated Dr. Glessner writes:

The Kaskine Co.—DEAR SIRS.—"The first greatest successes I had with Kaskine were in chills and fever, malaria, nervous debility, rheumatism, dyspepsia, and liver diseases and I considered at that time it undoubtedly was the best medicine ever discovered, but I was even then unfamiliar with its really wonderful powers in curing all the other germ diseases and disorders, particularly where the blood had become diseased or impoverished and the digestion impaired. Strictly speaking Kaskine is the only blood purifier we have. I use it also very largely with unfailing success in all diseases peculiar to women and children. In over 300 cases I have cured there has never been the slightest bad effect following its use, and it is far superior to any tonic or nerve medicine ever known to the medical profession." Very truly yours,

L. M. GLESSNER, M. D., 380 East 121st St., N.Y.

Prof. W. F. Holcombe, M. D., 54 East 25th St., N. H., (late Prof. in N. Y. Med. College) writes: "Kaskine is superior to quinine in its specific power, and never produces the slightest injury to the hearing or constitution."

The U. S. Examining Surgeon, Dr. L. R. White, writes; "Kaskine is the best medicine made."

St. Francis Hospital, N. Y.:—"Every patient treated with Kaskine has been discharged cured."

Bellevue Hospital, N. Y.:—"Universally successful."

St. Joseph's Hospital, N. Y.:—"Its use is considered indispensable. It acts perfectly."

Kaskine is pleasant to take and can be used without special medical counsel.

FRUIT HOUSE PRICES FOR '87

—:o:—

Quite a change has taken place in a great many goods the last sixty days, the tendency being in most cases upwards. This is the case, especially in Coffee and Dried Fruits, Sugars, Teas, Syrups, Spices and Tobaccos, have not advanced, but from indications they will. It will pay our customers to purchase liberally. We have just received forty hogsheads of choice New Orleans Sugar.

A nice yellow Sugar which we are selling at 4¼c. This is the lowest price such sugars have ever been sold at.

Sugars—White, Brown and Yellow New Orleans.

No advance on them. Choice yellow, 5c; best standard A coffee white, 6c crushed, powdered and granulated, 6¼c; choice yellow New Orleans, 4¼c.

NO ADVANCE ON TEAS,

Yet they will not likely remain at such low prices in the face of the large advance on Coffee. We continue to maintain our prestige in the Tea trade. Our trade has grown immensely in that line. People have no longer to send off to purchase their Teas. In order to save money we keep up the plan of buying in large lots of the importers and re-selling direct to our customers at a small profit, thereby saving to our customers the intermediate profits of jobber and wholesale dealer—which is not less than 10 to 20c.

Good, 15c per pound; choice, 30c; best, 50c. Imperial tea—Green, good, 30c; best, 50c, Gunpowder tea, 30c; best, 50c. Oolong or Black tea, 20c, 30c; best, 50c; Japan tea, 20c, 30c; best, 50c. Above prices on teas are the lowest on record and the best teas are of the highest quality—no better anywhere—the other grades are good, sweet, drawing teas and will please the most fastidious tea drinkers. Just give them a trial and satisfy yourself.

Coffee—Rio, Java and Roasted.

Best Rio coffee, 15c, per pound; best roasted Rio, 18c per pound; German coffee, 20c per pound; Housekeepers' Choice, 22c per pound; roasted Java, 25c per pound.

Foreign and Domestic Fruits, Prunes, Raisins, Currents, &c., &c.

Leghorn Citron, 22c; orange and lemon peel, 15c; Valencia raisins, 8c; best layer raisins, 12½c; Zantee currants, 8c; shelled almonds, 30c; seedless raisins, 10c.

When Cora Lee was called for trial last Friday the prosecution asked for a continuance on the ground that Louis West, an important state witness, could not be found after due diligence and that if present, he would testify that on the fatal night, September 30, 1885, he saw a woman, answering the description of Cora Lee, drive from the vicinity of the Molloy farm, in the direction of Springfield and later saw a man and two women drive back. These three are supposed to have been George E. Graham, his wife, Sarah, and the bigamously married Cora, and this furnishes a missing link in the chain of evidence connecting Cora with the decoying of Sarah Graham, her murder and the secretion of her body in the old well. Persons who were looking at Cora when the state moved for a continuance say that tears stole down her cheeks, so anxious does she appear for a trial. The next proceeding was the admission to bail of Cora in the sum of $7,000. Mrs. Molloy also courts an early trial.

Barnard's comet is now visible to the naked eye on the eastern horizon about daybreak, but is so low down that it is not readily seen unless one knows exactly where to look. It was discovered October 6. About 5 a. m., it makes a beatiful object in the telescope—a fine halo of light surrounding a sharp, white mass in the center. Its distance from the earth is now about 113,000,000 and is about 63,000,000 miles from the sun.

One of the questions that will receive attention at the hands of the legislature is the repeal of the telephone law passed two years ago. THE CLOISTER.

Three Beautiful Women, Belles in Society, Enter a Baltimore Convent.

BALTIMORE, Md., Jan. 11.—Within the high brick, prison-like walls of the Visitation Convent on Park avenue, three new nuns have just been received. Their names in religion are Sister Mary, Sister Angela, and Sister Rose.

Sister Mary is a type of southern beauty and the sack-like dress she wore ill concealed the grace of her figure. The last time the writer saw her she was in a ball room, the most lovely and most admired woman there, resplendent with jewels and smiling on a train of admirers. Her name in the world was Miss Emily McTavish. She is a great grandniece of Charles Carol, of Carolton, and a granddniece of the famous Misses Caton, the "Three American Graces," who are now the wives of English lords. Miss McTavish was the belle of last season here. Her wealth, her beauty, her high pedigree and her social graces made her the most sought after girl in Baltimore. She suddenly decided to enter the convent. All the pleadings in the world could not induce her to change her mind, although she was the reigning society belle and very wealthy.

Sister Rose is another beautiful girl. She was Miss Lily Hunter, recently a leader in the highest social circles of the "F. F. V." She was pretty, courted and wealthy, and at the height of her second season, when she gave up the world and came here.

The third, Sister Angela, was, in the world, Miss Lizzie McMasters, daughter of the late James McMasters, of the New York *Freeman's Journal*. She was a society belle also, and as suddenly came to the determination to renounce earthly pleasures.

Hoosier Drummers Dine and Dance.

TERRE HAUTE, Jan. 10.—The Commercial Travelers' association, of Indiana, held their twelfth annual convention here Saturday, about 400 being present, many accompanied by their wives. O. W. Moorman, of Indianapolis, was elected president; C. W. Bridges, of Indianapolis, first vice president; D. W. Coffin, of Indianapolis, secretary and treasurer, and delegate to the national convention. A banquet was given in the afternoon, at which 600 covers were laid, and a grand ball at night, under the auspices of the wholesale merchants and manufacturers and traveling men of the city.

COLONEL ROBERTSON

Declared Lieutenant Governor by the Republican Senators and Representatives—Extraordinary Proceedings.

INDIANAPOLIS, Ind., Jan. 10.—The hallways and corridors of the capitol were thronged by an immense crowd of people, this morning, anxious to witness the possible developments in the political struggle now in progress. Directly after prayer in the house, the doorkeeper stepped to the front of the speaker's chair and announced the presence of the senate, consisting of the nineteen republican members of that body.

Mr. Kellison, democrat, arose and called, "Mr. Speaker," but he was not recognized. The republican senators entered and took their seats. Mr. Kellison was meanwhile vainly claiming the speaker's attention.

Speaker Sayre immediately announced that the business of the convention was to canvass the vote for lieutenant governor, and Kellison again sought a hearing, but was promptly told he was out of order.

Other democratic members claimed the speaker's attention, but all were refused recognition. The reading of the returns consumed half an hour., and at the close, while the clerk was making his computation, Jewett, democrat, addressed the speaker, but was told nothing would be in order until the canvass was completed. The result of the vote was announced as follows: Robertson, 232,016; Nelson, 229,593. Robertson's majority, 3,323.

Upon this, Robertson was then sworn in by Judge Walker, of the superior court.

Said Speaker Sayre: "I declare Robert Robertson the lieutenant governor of Indiana, and he will address you."

Colonel Robertson instantly advanced to the front of the speaker's desk, and, taking the gavel, rapped for order. Mr. Gordon (democrat) raised his hand and called, "Mr. President!" but no attention was given him. Mr. Jewett also did the same. They managed to utter a protest, which was the signal for great disorder, during which Robertson delivered his inaugural.

NOTES.

"Mr. Lemcke has not notified me, as the *Journal* states," said State Treasurer Cooper, "that in my settlement with him he will not receive receipts for money paid on legislative warrants signed by President Smith, of the senate. In fact he has not said or written anything about it to me. I don't pay out money in orders or warrants signed by the president of the senate, but only on warrants that come from the auditor of state, and it is none of my business what they are for. I don't anticipate any trouble on this account, however."

There is at present only about $25,000 in cash available for the expense of continuing the work on the new state house, and this will be exhausted in less than two months. Unless the legislature makes some other provision there will be no further income available until the proceeds of the general tax levy for the current year begins to come in next August. The estimated expenses up to that time are about $70,000, and unless the commissioners anticipate this, the work will either have to be stopped for several months or the contractors continue it and wait for their money. The total expenditure already made and contracted for is $18,000,000, and the original intention was to reserve the money that came in next fall to pay the per cent. kept out of the contractors' estimates on the work already done.

The *Labor Signal* has this to say of the attitude of the Knights of Labor in the legislature: "An effort was made to hold an independent caucus of Knights of Labor, for the purpose of organizing the legislature and electing a Knight to the speakership, thus making sure of representation upon the most important committees. It was within the power of the Knights of Labor to do this, but a majority did not choose to avail themselves of the opportunity, and the project was abandoned. Three Knights of Labor, Messrs. McKay, Glover and Robinson, will, it is understood, refuse to enter the senatorial caucus. If they stand out, and we believe they will, the Knights of Labor can name the next United States senator from Indiana. If they do their duty, Mr. Harrison's successor will be a man who stands squarely upon the Knights of Labor platform, and who will go to Washington pledged to the interests of the people as against monopoly in every shape and form."

It is about time some one was introducing a bill in the legislature making a direct attack upon the ill-fame element, as it has been some time since the solons of the state have gotten up something in this direction. There is still a recollection of the one several years ago, and of the one thousand dollar rumor, and the wine supper episode which followed an unexplained disappearance.

Both the leading parties were pledged to increased saloon tax in the last campaign, the only difference being that the republicans were pronounced in declaring for high license, while the democracy were timid in saying to what length they were willing to go. For this reason it is practically certain that bills will be introduced, in accordance with their respective pledges, but it is not altogether certain that these bills will be permitted to run their course ere they disappear.

Death of Mr. W. T. Hunter.

Mr. W. T. Hunter died yesterday morning at his home in Huntertown after a brief but malignant attack of pneumonia. He has been ailing but a little less than a week, and not until Saturday did the disease assume a serious phase. Mr. Hunter is one of the pioneer citizens of this county, having almost reached the age of eighty-five years. His children grow up about him in the town he founded and they enjoy the honor that follows their illustrious father to the grave. It is less than a year since he and his wife, now deceased, celebrated their golden wedding anniversary amid the well wishes and congratulations of a host of friends and neighbors. Last Christmas he gave to each of his children a deed to a valuable piece of property in his estate, as a gift, and then gave evidence of repeating another such noble act on a like occasion. Mr. Hunter's funeral will occur next Thursday from Union chapel, at Huntertown, and later THE SENTINEL hopes to give a sketch of his life. He was the father of Cas Hunter, deputy county treasurer; Mr. Joe Hunter, who is always a judge at the fair races, and the father of Mrs. Dr. Greenwell, of Huntertown.

Boston is Enjoying a Big Street Car Strike.

BOSTON, Mass., Jan. 10.—A general tie up on the consolidated horse railroad occurred this morning. WESTRUMB.

It is Rumored He has Fled to Escape the Wrath of Ernest Minneker.

It is stated on the best authority that Baron H. C. F. Westrumb, who guided his horses on the Pittsburg track, the night the ill-fated sleighing party was run down, has fled from the city. He was censured by Coroner Dinnen, but the immediate cause of his flight was information from Ernest Minneker, father of Dino Minneker, who was killed, that he must prepare to defend his life at their first meeting. Westrumb made the remark to Captain Diehl, just after the accident, that "I would sooner have lost both horses than have it happen," and this coming to the ears of Mr. Minneker, aroused his anger beyond control. Mr. Westrumb did not leave his card, as that THE SENTINEL cannot give his exact whereabouts.

QUITE A BOOM.

A Wealthy Syndicate Make Propositions to Purchase the Street Car Lines.

A syndicate of capitalists have made a proposition to buy out the Citizens' Street Railway company and the matter will be considered at the meeting of the stockholders to-morrow. The orginal stock of the company is $27,000 and the property is bonded for $20,000 ten per cent. bonds. The coupons have not been clipped for eleven years and this swells the bonded indebtedness to $42,000. The new syndicate proposes to purchase the stock and bonds considerably below par and then improve and extend the lines, closing their scheme by cancelling the old bonds and issuing new paper to the extent of $75,000 or $100,000. This would pay a handsome profit if they only operated the lines until the first interest payment was defaulted. In any event the street car lines will be extended and improved in the spring.

ITALY does better than the United States in the matter of monuments. One has been erected to Victor Emmanuel, at Turin, costing $200,000, all of which was paid by King Humbert. Another is going up on the Janiculum, in Rome, to Garibaldi, to cost as much. Milan, Naples, Genoa, Palermo and Bologna are putting up monuments to Victor Emmanuel, costing from $50,000 to $100,000 each, and Genoa is spending $30,000 on one to Mazzini.

THE preparations for the great World's Fair of 1889 at Paris may be said to have fairly begun by the closing of the little park which fringes the Quai d'Orsay side of the Champ de Mars. Trees and plants have been hewn or pulled out, and vases have been removed in order to make room for the foundations of the new Tower of Babel. Workmen's sheds have also been erected on the spot, and everything around wears a busy aspect.

IN Muscat the men all wear skirts, and the women wear the breeches, though this principle of reversal does not extend beyond the apparel. Muscat's principal industry is the export of dates, the finest of which come to America. In return we send the people of Muscat cotton sheeting. The dates, as they are packed for export, are packed down with American cider presses. India takes large quantities of the inferior quality of dates, and the membraneous parts of sharks' fins are dried and exported to China.

A MAN living at Pocahontas, Iowa, claims to have found a cheap and excellent substitute for coal and wood as fuel. He grinds prairie grass with cornstalks and presses the pulp into blocks a foot long and four inches thick. One of these blocks, it is claimed, will last an hour, giving a good, steady heat. The fuel, it is claimed, can be made for $2 a ton, and is much cleaner and burns longer with a better heat than any soft coal. The coal barons would do well to take this man into partnership before he demonstrates that it is possible for the world to get on without their productions.

CONGRESSMAN LAWLER has been so overrun with the wives and mothers of office-seekers that he recently gave orders to the door-keepers of the House not to send any more cards. Recently, however, Mrs. Lawler went to see the statesman from the Second Illinois, and on being told that she couldn't see him, exclaimed: "Can't see him! Why, I'm his wife!" "Oh, come, now," was the heartless reply, "you can't work that racket here. A hundred women to-day have told me the same thing." It is said that Mrs. Lawler's face is seen more frequently in the gallery since that thoughtless remark was made.

A NEW YORK paper flashes up a lengthy story of a ghostly promenader on Brooklyn bridge, which always winds up its walk by leaping from the bridge with a scream. A Broadway, New York, jeweler, it is stated by the same paper, exhibits a crown which the Empress Eugenie considered "the nicest one she had ever worn." The ex-Empress, after the death of her son, returned it to the Parisian jeweler from whom she originally bought it, for $40,000. Then a rich New-Yorker bought it, intending to present it to a prima donna, but the lady's husband filed an objection. These two stories are a nice pair.

THE London *Times* corresponde the other day ascertained from M. Pasteur the precise state of the Pasteur Institute subscription and of his experiments. The subscription has now nearly reached 1,800,000 francs, but contributions still flow in, though rather more slowly, and M. Pasteur has reason to hope that he will eventually reach the sum required. The Paris municipality has given a gratuitous lease for 99 years of 2,500 meters of ground, the site of the old College Rollin. This area being insufficient for the laboratories, not merely for rabies but for other contagious maladies, he has asked for a lease for 99 years of 2,500 meters adjoining.

IT is related by a Nova Scotia paper that while two young men of Shelburne were hunting moose recently one of them entered a peculiar hole discovered in a cliff of rock, but coming in contact with some fur he speedily withdrew. The two fired several shots into the hole, when out came a little black bear. They quickly put an end to the creature, and then looked in to see if they had done any mischief inside, when to their surprise they saw two more lying dead. The latter were large, but they were dragged out. One of them was skinned and the other two slung over their backs and toted home.

A REMARKABLE woman died a few days ago at Villa Rica, Ga., aged 92 years. She was a midwife, and during her life she was at the birth of 519 white children and 347 colored, and she never lost one of those or its mother. She was the mother of ten children, one hundred grandchildren, fifty great-grandchildren, and eleven great-great grandchildren. For eighty years she was a consistent member of the Methodist Church. Just before her death she said to her son: "I am going home." He asked: "Mother, are you not home now?" and she said joyfully: "No, I am going to my heavenly home." And thus she passed peacefully away.

M. DE LABOULAYE, the new French ambassador to St Petersburg, has been instructed by his Government to keep his head on a level with those of the other great powers. As he has no personal fortune the French Government has given him a carte-blanche allowance. M. de Laboulaye has hired a splendid mansion on the Quai de la Cour, near the palace of the grand dukes. A double marble staircase leads to two vestibules, which are being hung with Gobelin tapestries and end in a winter garden. The reception and ball-rooms are lighted with colored Venetian lamps and surrounded with Venetian glasses. Up-stairs are the living-rooms and the offices of the embassy.

NAPOLEON said that an army, like a snake, moved upon its belly. General Egbert L. Viele, echoing that maxim, declared the other day that bad cooks had been the curse of the United States regular army. General V. was visiting West Point, and he was pleased to be able truthfully to add that the reform in the matter of cookery there has been thorough. The young "fire-eaters" there breakfast, dine and sup according to hygienic rules. General Viele, says a writer commenting on this, has made no utterance, however, as to reconciling hygiene with hard-task on such a march as that which Hood took before he struck Sedgwick in the bend of the Harpath River. In some of the knapsacks, of which dead rebels were stripped on the battle-field, were found bits of sassafras bark, pone bread crust and roasted acorns. That was the food they had, but they fought like devils.

THERE is a Representative in Congress from one of the Southern States who manages to live comfortably in Washington at an outlay of not more than $1,500 per annum. He has no family, neither drinks nor uses tobacco in any form, yet he appears to enjoy life in his own way and is a general favorite with his Congressional associates. He has a nest but not extravagant apartment in an eminently respectable section of the city and dresses in good taste. Many of his companions are very anxious to learn his methods of saving so much of his salary, but he refrains from giving any advice on the subject, but tells them good-naturedly that it is the result of his self-control. He is not in any sense a miser, but he is about the best specimen of a model moral Congressman in existence to-day.

"THERE is a revolution impending in the construction of locomotives," said a railroad engineer, "and the improvement, I understand, is due to the success of the triple expansion engines on ocean steamers. Not that compound engines are not to be used for locomotives, but if a number of cylinders aggregating the same power will save coal on an ocean steamer, why not on a locomotive? The fact that the present system is not the best has been well known for a long time. The transmission of power through the connecting rods to the drivers is an uneconomical way at best, and when in going around curves the wheels are not able to turn in unison, one or the other must slip so long as they are rigidly connected. Now it is proposed to use four cylinders instead of two, one pair for each set of drivers. The aggregate power of the four is equal to that of the two now used, but it was found in a series of experiments made at Woolrich Arsenal, in England, by the British War Office, that the power used to move the locomotive itself was from 30 to 40 per cent. less with the four cylinders than with the two. The experiment were made with an old two-cylinder locomotive altered to use four cylinders. Of course the results were not equal to those that could be obtained with a machine made to order. The coming locomotive will have a pair of cylinders for each driving wheel axle."

BEFORE AND AFTER.

How Fares the Democratic Newspapers That Opposed the Election of Judge Lowry.

During the last campaign four democratic papers in the district opposed the election of Judge Lowry, the regular nominee. Monte Christo-like they are reaping their reward and Hon. Andy Ellison's Lagrange *Sentinel* alone holds out against the fates. The Kendallville *News*, the Albion *Democrat* and Garrett *Clipper* were foremost in the democratic revolt. Now look at the picture:

The now publishers of the Kendallville *News* announce that Dr. Parker's retirement from that paper is final and complete; J. J. Lash has sold the Albion *Democrat* to a straight democrat and H. E. Little last week disposed of his interest in the Garrett *Clipper*. It is said the Albion *Democrat* lost 100 patrons in one day. The *News* and *Clipper* only saved itself by a timely "flop" and subsequent activity in behalf of the ticket. But the work had been done; the seed of dissension sown; the disappointed element had been organized and the rebellion put in motion. This is the reward.

Public Installation at Zanesville.

The members of Fellowship lodge, No. 625, I. O. O. F., Zanesville, gave a semi-public installation on Wednesday evening, Jan. 5. It has long been known that for genuine hospitality the good people of Zanesville have few equals and no superiors and upon this occasion the Odd Fellows and their wives added another substantial proof. The families in the village and surrounding country were pretty well represented in the hall and in addition quite a number of Odd Fellows went over from Roanoke in sleighs. The hall was demurely packed and after order was called D. D. Grand Master George W. Diffendoffer installed into their respective chairs the officers of Fellowship lodge, Martin Scott, N. G.; Quincy Reddin, V. G.; John Curl, treasurer, with the usual compliment of supporting officers whose names we did not learn. After the ceremonies of installation were concluded, calls were made for speeches in which a number responded in short, but well timed remarks. Under the direction of Brother Diffendoffer, who was also master of ceremonies, the hall was arranged, and as if by magic a table appeared stretching the full length of the hall, filled with the delicacies of the season.

The State Weather Service.

James Cassidy, the observer of the state weather signal corps, now in Indianapolis, has issued a circular, addressed principally to railroad men, soliciting their co-operation in organizing the service, which, it is intended, shall be operated in conjunction with the board of trade, railroad companies, and other corporations, and with the national weather service. Purdue university will conduct the service, and through this medium it is intended to keep the farming community informed as to what the weather probabilities will be. The railroads are asked to assist by either hoisting signal flags or bulletin boards giving the daily indications.

Journal.

There is a saloon on Calhoun street, not very far removed from the corner of Wayne and Calhoun streets, that is best known to the boys about town as the "Chippies' Roost." It is a notorious fact that young men and girls congregate there at all hours of the day and night, and that numerous subjections are consummated there. The place is a tough one and should demand the immediate attention of the authorities.

Catarrh is a constitutional disease, Hood's Sarsaparilla is a constitutional remedy. It cures catarrh. Give it a trial.

Rheumatism

We doubt if there is, or can be, a specific remedy for rheumatism; but thousands who have suffered its pains have been greatly benefited by Hood's Sarsaparilla. If you have failed to find relief, try this great remedy.

"I was afflicted with rheumatism twenty years. Previous to 1883 I found no relief, but grew worse, and at one time was almost helpless. Hood's Sarsaparilla did me more good than all the other medicine I ever had." H. T. BALCOM, Shirley Village, Mass.

"I had rheumatism three years, and got no relief till I took Hood's Sarsaparilla. It has done great things for me. I recommend it to others." LEWIS BURBANK, Biddeford, Me.

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion*; 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

PRICES DURING 1886.

THE BUSINESS BAROMETER OF THE PAST YEAR.

The Stock Fluctuations in Wall Street Result in Better Prices—The Cost of Food—A Prosperous Outlook for 1887. Petroleum.

The following chart presents a complete picture of the fluctuations in railroad stocks as the New York Stock Exchange during the year 1886:

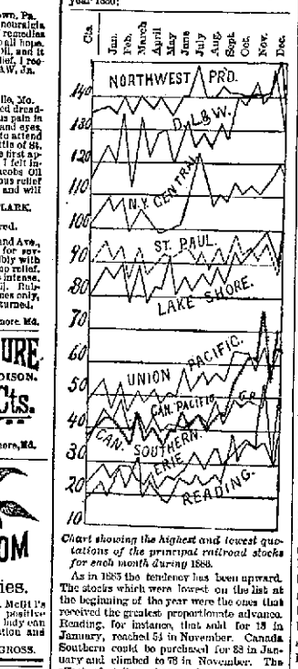

Chart showing the highest and lowest quotations of the principal railroad stocks for each month during 1886.

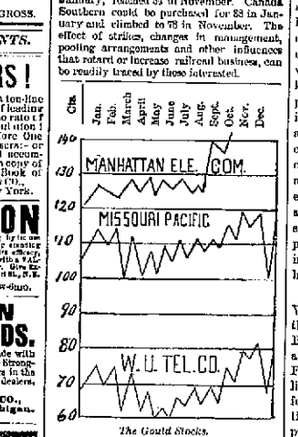
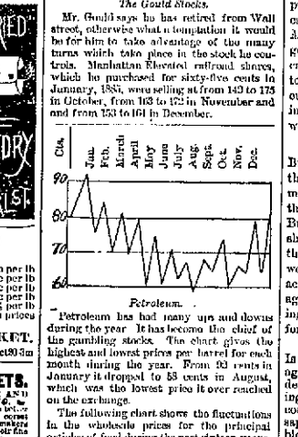
As in 1885 the tendency has been upward. The stocks which were lowest on the list at the beginning of the year were the ones that received the greatest proportionate advance. Reading, for instance, that sold for 18 in January, reached 54 in November. Canada Southern could be purchased for 88 in January and climbed to 78 in November. The effect of strikes, changes in management, pooling arrangements and other influences that retard or increase railroad business, can be readily traced by these fluctuations.



The Gould Stocks.

Mr. Gould says he has retired from Wall street, otherwise what a temptation it would be for him to take advantage of the many turns which take place in the stock he controls. Manhattan Elevated railroad shares, which he purchased for sixty-five cents in January, 1885, were selling at from 143 to 175 in October, from 103 to 122 in November and and from 153 to 161 in December.

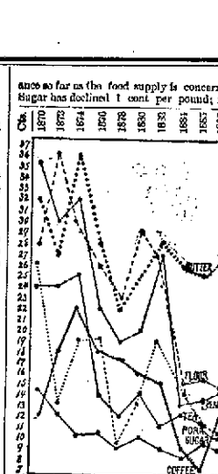


Petroleum.

Petroleum has had many ups and downs during the year. It has become the chief of the gambling stocks. The chart gives the highest and lowest prices per barrel for each month during the year. From 93 cents in January it dropped to 53 cents in August, which was the lowest price it ever reached on the exchange.

The following chart shows the fluctuations in the wholesale prices for the principal articles of food during the past sixteen years. The prices of butter, tea, sugar and coffee is given per pound, flour and pork by the barrel and peaches per can. As the prices and grades of the various food products vary so greatly, the endeavor has been to record a medium grade. The value of the chart can best be understood by following the fluctuations of each line from left to right. Take canned peaches, for example. The grade which cost 35½ cents in 1870 could be purchased in 1886 for 14½ cents. Coffee, the lowest article on the list in 1870, sold at 12 cents per pound, rose to 22 cents in 1871, fell to 7 cents in 1885 and cost 12 cents in 1886. The American Grocer gives as a reason for the advance in coffees: "A steady increase in the consumption is to be noted year after year. The decline of the supply from Ceylon, the check given to settling our new plantations by reason of several years of low prices have caused the total supply of producing countries to fall below the requirements of the consuming countries."

The same authority says: That the wholesale cost of single articles of food during 1886 were with one or two exceptions lower than in 1885. Higher prices have ruled for some of the luxuries, such as coffee and canned goods, but as the advance was made mostly during the last quarter of the year it has not to any appreciable extent influenced the cost of living. Consumers never before commanded a greater variety of food and of such high quality as in 1886. Wages are good and the buyer can get more for them to-day than at any previous time in a generation. Certainly there is no cause for grievance so far as the food supply is concerned. Sugar has declined 1 cent per pound; rice,



The Decline in the Cost of Food.

1½ cents; tea, 2 to 3 cents; butter has averaged 4 11-16 to 2¾ cents higher; cheese, 1¼ cents higher on medium and lower grades; eggs, 1½ cents lower; pork, $1.50 per barrel lower; lard, 1¼ cents per pound lower; flour has averaged $4.40 per barrel for straight winter wheat, being the lowest average price on record; wheat sold at an average of 1 to 8 cents above the cost for two preceding years; canned goods ranged from 10 to 20 cents higher for most sorts."

A Pretty Handy Bull.

In the Cleveland Common Pleas Court, William Fulton, a wealthy farmer, sued for divorce from his wife. Three years ago he was married to his present wife, and, barring a honeymoon of three months, he says he has had to jump around lively ever since. Mrs. Fulton's attorney questioned the husband, and the following interesting "bull" story was brought out, amidst great laughter. "Now," asked the lawyer, "didn't you keep a ferocious bull to scare your wife with?" "I kept a bull," responded Fulton, "but I had to. I could not sell him; he was cross; but I never thought of using him to scare my wife." "What did you keep him for?" "Well, I used him as a sort of bank, or rather I made him guardian of my private papers. Nothing was safe about the house, and I couldn't keep a thing from my wife. All my personal papers I tied up and put them in the bull's manger, a little ways above his head. They were pretty secure there, as it wasn't safe for any one on the farm except myself to go near the animal. Mrs. Fulton threatened continually to burn the house, and I insured it, being determined to save myself from loss. The insurance papers were taken care of by the bull in the same manner. He was a pretty handy bull."

GEN. BOULANGER, French Minister of War, has caused some commotion among the numerous pigeon-flying societies of Belgium by a recent order prohibiting all foreign pigeons from entering France, lest the Germans should establish stations in Belgium or elsewhere for their military carrier-pigeons. The Belgian Minister of Foreign Affairs has promised to intercede for the Belgian carrier-pigeon societies, but *La France Militaire*, the organ of Gen. Boulanger, replies that under no conditions can foreign carrier-pigeons be allowed to enter France, and it brusquely accuses the Belgian societies of introducing German pigeons into France as well as their own.

An old Cincinnati man tells how Gen. Butler got his wife. Miss Hildreth, the daughter of an Episcopalian clergyman, was engaged as leading lady at the principal theater in the city. Gen. Butler happened to be in the city when she made her debut and attended the theater every night. In about two weeks he carried the accomplished actress away as his wife, and the management and public were left in mourning. Benjamin hasn't always been so fortunate in "getting there" since.

Catarrh

Is a very prevalent and exceedingly disagreeable disease. Liable, if neglected, to develop into serious consumption. Being a constitutional disease, it requires a constitutional remedy like Hood's Sarsaparilla, which, acting through the blood, reaches every part of the system, effecting a radical and permanent cure of catarrh in even its most severe forms. Made only by C. I. Hood & Co., Lowell, Mass.

The annual rental of pews in Mr. Beecher's church realized $27,861, an excess over last year.

THE NEW QUININE. KASKINE.

Kaskine is compiled from Dutch sources

WHAT THE PHYSICIANS SAY ABOUT IT FOR RHEUMATISM, MALARIA, DYSPEPSIA, *NERVOUS DEBILITY*, LIVER, LUNG AND KIDNEY DISEASES.

The eminent and celebrated Dr. Glossner writes: *The Kaskine Co.*—DEAR SIRS,—The first great success I had with Kaskine were in chill & and fever, malaria, nervous debility, rheumatism, dyspepsia, and liver difficulties and I considered at that time it undoubtedly was the best medicine ever discovered, but I was even then unfamiliar of its really wonderful powers in curing all the other germ diseases and disorders, particularly where the blood had become diseased or impoverished and the system impaired. Strictly speaking Kaskine is the only blood purifier we have. I use it also very largely with satisfying success in all diseases peculiar to men and children. In over 20 years I have never had there has never been the slightest bad effect following its use, and it is far superior to any tonic or nerve medicine ever known to the medical profession." Very truly yours,

L. M. GLOSSNER, M. D., 230 East 81st St., N.Y.

Prof. W. F. Holcombe, M. D., 54 East 24th St., N. H., thus writes to N. Y. Med. Colleges: "Kaskine is superior to quinine in its specific power, and never produces the slightest injury to the hearing or constitution."

The U. S. Examining Surgeon, Dr. I. B. Wells, writes: "Kaskine is the best medicine made."

FRUIT HOUSE PRICES FOR '87

—:o:—

Quite a change has taken place in a great many goods the last sixty days, the tendency being in most cases upwards. This is the case, especially in Coffee and Dried Fruits, Sugars, Teas, Syrups, Spices and Tobaccos, have not advanced, but from indications they will.

It will pay our customers to purchase liberally.

We have just received forty hogsheads of choice New Orleans Sugar.

A nice yellow Sugar which we are selling at 4½c. This is the lowest price such sugars have ever been sold at.

Sugars—White, Brown and Yellow New Orleans.

No advance on them. Choice yellow, 5c; best standard A coffee white, 6c; crushed, powdered and granulated, 6½c; choice yellow New Orleans, 4½c.

NO ADVANCE ON TEAS,

Yet they will not likely remain at such low prices in the face of the large advance on Coffee. We continue to maintain our prestige in the Tea trade. Our trade has grown immensely in that line. People have no longer to send out to purchase their Teas. In order to save money we keep up the plan of buying in large lots of the importers and re selling direct to our customers at a small profit, thereby saving to our customers the intermediate profits of jobber and wholesale dealer—which is not less than 10 to 20c.

Good, 15c per pound; choice, 20c; best, 25c. Imperial tea—Green, good, 30c; best, 50c. Gunpowder tea, 30c; best, 50c. Oolong or Black tea, 20c, 30c; best, 50c. Japan tea, 20c, 30c; best, 50c. Above prices on teas are the lowest on record and the best teas are of the highest quality—no better anywhere—the other grades are good, sweet, drawing teas and will please the most fastidious tea drinkers. Just give them a trial and satisfy yourself.

Coffee—Rio, Java and Roasted.

Best Rio coffee, 15c, per pound; best roasted Rio, 18c per pound; German coffee, 20c per pound; Housekeepers' Choice, 22c per pound; roasted Java, 25c per pound.

Foreign and Domestic Fruits, Prunes. Reisins, Currents, &c., &c.

Turkish prunes, 6c; figs, per pound, 8c; peeled peaches, 15c; dried cherries, 15c; unpeeled peaches, 8c; dried raspberries, 20c; dried apples, 6c; dried blackberries, 12c.

Leghorn Citron, 22c; orange and lemon peel, 15c; Valencia raisins, 8c; best layer raisins, 12½c; Zante currants, 8c; shelled almonds, 30c; seedless raisins, 10c.

Candies—Stick, Mixed and Bon Bons.

Pure stick candy, 10c; pure mixed candy, 10c; fancy toy candy, 20c, toy candies, 20c; Brazil nuts, 10c quart; almond nuts, 15c quart; mixed nuts, 15c quart; walnuts and filberts, 12½c quart.

Syrups---Maple and Sugar Syrups and New Orleans Molasses.

Pure Maple syrup, 70c a gallon; golden drips, 40c; Sorghum, 40c; New Orleans molasses, 30c; best, 50c. The sorghum is splendid and 10c lower than we ever sold it before.

WINES AND LIQUORS FOR MEDICAL PURPOSES.

Old 76, $2.50 per gallon; two years old, $1.75; one year old, $1.40 per gallon; now whisky, $1 and $1.25 per gallon; Port and Sherry wine, $1.25 per gallon; California wine, $1.25 per gallon; wines in bottles, 40c.

When Cora Lee was called for trial last Friday the prosecution asked for a continuance on the ground that Louis West, an important state witness, could not be found after due diligence and that if present, he would testify that on the fatal night, September 30, 1885, he saw a woman, answering the description of Cora Lee, drive from the vicinity of the Molloy farm, in the direction of Springfield and later saw a man and two women drive back. These three are supposed to have been George E. Graham, his wife, Sarah, and the bigamously married Cora, and this furnishes a missing link in the chain of evidence connecting Cora with the decoying of Sarah Graham, her murder and the secretion of her body in the old well. Persons who were looking at Cora when the state moved for a continuance say that tears stole down her cheeks, so anxious does she appear for a trial. The next proceeding was the admission to bail of Cora in the sum of $7,000. Mrs. Molloy also counts an early trial.

Barnard's comet is now visible to the naked eye on the eastern horizon about daybreak, but is so low down that it is not readily seen unless one knows exactly where to look. It was discovered October 6. About 5 a. m., it makes a beatiful object in the telescope—a fine halo of light surrounding a sharp, white mass in the center. Its distance from the earth is now about 113,000,000 and is about 63,000,000 miles from the sun.

One of the questions that will receive attention at the hands of the legislature is the repeal of the telephone law passed two years ago. The law has been from the beginning a dead letter in the larger cities of the state. In the smaller towns a monthly rental of $3 per instrument has been charged by the Central Union company in accordance with the law. But in Lafayette, Fort Wayne, Richmond and Indianapolis, the law has been evaded and what is known as the toll system has been in use for nearly a year.
